### **IAPMO ES Introduces Green Codes Evaluation Service**

**Ontario, Calif. (Dec. 16, 2010)** — Construction product manufacturers wishing to demonstrate their products' compliance with the requirements of sustainability-focused codes and programs such as the California Green Building Standards Code (CALGreen), International Green Construction Code (IGCC), NAHB and the U.S. Green Building Council's LEED program may now do so through IAPMO ES.

IAPMO ES can certify that a manufacturer's products, materials and designs conform to the requirements of CALGreen and the other model codes and/or guidelines of minimum requirements for green construction. IAPMO ES provides highly professional, widely accepted evaluation reports verifying that products to be used in green construction conform to the requirements of any applicable code/program.

"With Green building principles rapidly advancing from voluntary to mandatory status across North America, it's smart to show contractors as well as Authorities Having Jurisdiction that your products fit within the green construction code before purchases are made and installations begin," says Amir Zamanian, director of IAPMO ES. "With our expedited service capabilities, IAPMO ES can have your Green products certified quickly, easily and for a price that won't take a huge bite out of your budget."

The IAPMO Group, which includes IAPMO ES, as well as IAPMO R&T and IAPMO R&T Lab, is an industry leader in product evaluation, testing and certification. With all services available under one roof, The IAPMO Group can offer manufacturers unrivaled efficiency, attentive service and incomparable value as they seek to demonstrate their products' compliance to various codes and standards.

#### **ABOUT IAPMO ES**

Since 1936, IAPMO has proved the integrity of building products to the gatekeepers in every community. When presented with an IAPMO ES evaluation report, these gatekeepers have every confidence that building products meet the required standards. Day in and day out, jurisdictions across the country recognize the IAPMO marks of conformity among the most trusted marks in the industry. This includes ES evaluation reports. IAPMO ES is an approved agency in compliance with Section 1703 of the International Building Code (IBC) and is accredited by the American National Standards Institute (ANSI) under ISO/IEC Guide 65.

For more information on IAPMO ES, direct your Web browser to [www.iapmoes.org](http://www.iapmoes.org) or contact Amir Zamanian at (909) 230-5533 or [amir.zamanian@iapmoes.org](mailto:amir.zamanian@iapmoes.org).

*IAPMO ES evaluates building products, materials and designs according to all applicable codes and standards, ensuring continuous compliance to such documents.
